

Pieces of the Past Jigsaw

Buried underground beneath our feet, there could be hundreds of objects from long ago. However, when archaeologists are digging and looking for these objects, sometimes they only find broken pieces and have to put it back together – a bit like a jigsaw with no picture on the box to follow!

Give it a go yourself – cut out the pieces below and see if you can put them back together again.

HANDY HINT!

When you've finished your jigsaw, why not colour it in?

If you need a little help putting your object back together, the shape can be found on the next page.
